482-1-147-.07 Insurance Producer License.

(1) Business Entity Producer. A business entity may be issued an insurance producer license in accordance with the following:

- (a) To be licensed as an insurance producer, a business entity must be a corporation, a limited liability company, a partnership, a limited partnership, a limited liability partnership, or another legally recognized form of entity distinct from an individual or the individuals or other entities that may own or hold interests in, or be members of, the entity as determined by the laws of the entity's state of domicile. A sole proprietorship can only be licensed as an

individual producer. One or more individuals doing business under a trade name cannot obtain a business entity producer license absent formal organization as an entity.

(b) An Alabama-domiciled business entity shall complete the Department's on-line licensing process to become licensed as an insurance producer for a particular line or lines of insurance. Instructions for the on-line licensing process will be provided on the Department's Web site.

(c) A foreign-domiciled business entity may use the on-line licensing process or may submit or transmit a copy of the application that was submitted to its domiciliary state. Issuance of an Alabama business entity producer license to a foreign-domiciled business entity does not in itself satisfy any applicable Alabama constitutional and statutory requirements that may require the entity to qualify through or register with the Alabama Secretary of State in order to lawfully do business in Alabama.

(d) The business entity license applicant must identify at least one licensed individual producer designated as responsible for the business entity's compliance with all applicable laws, rules, and regulations for each line of authority. A licensed individual producer so designated must have such a degree of affiliation with the entity in terms of an ownership interest in the entity, a role as an officer or director, by contract or employment relationship, or otherwise as reasonably assures that the licensed individual producer can cause or influence the entity's compliance with all applicable laws, rules, and regulations.

(e) Business entity producers must be appointed to act on behalf of an insurer and must be appointed by each insurer it represents. A business entity is deemed to be representing or acting on behalf of an insurer upon entering into an agency contract or agreement with the insurer. Each individual producer acting as a producer of the insurer on behalf of the business entity producer must also be appointed to represent the insurer.

(2) Individual Producer. An individual may be issued an insurance producer license in accordance with the following:

(a) An Alabama resident shall complete the Department's on-line licensing process to become licensed as an insurance producer for a particular line or lines of insurance.

(b) A nonresident individual may also use the on-line licensing process or may submit or transmit a copy of the application that was submitted to the home state.

(c) Individual insurance producers must be appointed to act on behalf of an insurer and must be appointed by each insurer it represents.

(3) Unless exempt, an individual applicant must comply with the examination requirements prior to making application for license as an insurance producer for those lines of authority requiring an examination.

(4) An individual seeking to be licensed for or holding the variable life and variable annuity products line of authority must also hold the life line of authority as an insurance producer and must also successfully complete the appropriate securities examinations and be registered under the applicable federal and state securities laws.

(5) An individual or business entity may apply for an insurance producer license for any or all of the lines of authority for which qualified at one time; however, subsequent applications for additional lines of authority are treated the same as initial applications. All license and application fees apply for each application submitted or transmitted.

(6) Instructions for the on-line licensing process, as it may change from time to time, will be provided on the Department's Web site.

(7) The initial fees for an individual insurance producer license are set by statute and are listed on the Department's Web site.

(8) Subsequent changes in the name, mailing address, or electronic mail address of a producer must be reported within 30 days thereof. While there is no filing fee for reporting such changes, there is a penalty of \$50 for the failure to report the changes within 30 days. Instructions for the name, mailing address, or electronic mail address change process, as it may change from time to time, will be provided on the Department's Web site.

(9)(a) Individual and business entity producers are subject to the license renewal process set forth in Chapter 482-1-110.

(b) If an insurance producer license is not renewed in accordance with Chapter 482-1-110 the license expires and all insurer appointments are canceled.

(c) Within twelve months of expiration, the former licensee can reapply for an insurance producer license without having to retake the examination by following the instructions for the on-line license reinstatement process, as it may change from time to time, as directed on the Department's Web site. Upon receiving the reinstated license, the producer may again be appointed by insurers by following the on-line appointment process.

(d) When former licensees have been without a license for over twelve months, they must comply with any applicable examination requirements before again applying for an insurance producer license.

(10) When an insurance producer's license is suspended or revoked, the former licensee should contact the Legal Division of the Department to receive instructions should the former licensee desire to again become licensed.

(e)1. An individual may only have one temporary producer license for a particular line of authority in a lifetime, except when the prior license was canceled before expiration, in which case the remaining time may be applied to a subsequent temporary producer license.

2. The Department will rely on its license and appointment records to determine the length of time an individual held a temporary license in a line of authority for purposes of the six-month limitation. The Department will not accept or act upon insurer representations that a producer's part appointment terminated earlier than as shown in the Department's records or that the producer did not earn commissions while appointed, or other similar claims which are not established or capable of being established in the Department's records.

(f)1. A temporary producer must be appointed by at least one insurer for each line of authority but may be appointed to represent more than one insurer only by affiliated companies.

2. Each insurer using temporary producers shall have prospective temporary producer licensees sign a disclosure statement before application is made for the license, whether a new applicant or an applicant using the balance of an unused prior six-month license. The Department will provide a copy of the disclosure form on its Web site. A copy of the signed disclosure shall be provided to the applicant and the original signed disclosure shall be retained by the insurer and made available to the Department upon request.

1. The individual is the surviving spouse or court-appointed personal representative of a licensed producer who dies or becomes mentally or physically disabled.

2. The individual is a member or employee of a business entity which is a licensed insurance producer, upon the death or disability of the licensed individual producer designated by the business entity to be responsible for the business entity's compliance with all applicable laws, rules, and regulations.

3. The individual is the designee of a licensed producer entering active service in the Armed Forces of the United States of America.

4. Another circumstance determined by the Commissioner on a case-by-case basis which best serves the public interest.

(c) The applicant must be sponsored by a licensed insurance producer or insurer who will assume responsibility for all acts of the Type 2 temporary producer.

(d) A Type 2 temporary producer license is valid for a period not to exceed six months, except a Type 2 temporary license issued under circumstances of disabling or confining illness or injury of the producer may be renewed for one additional six-month term.

(e) The Type 2 temporary licensee may complete the examination requirements and convert the Type 2 temporary license to an ordinary producer license.

(f) In the event an individual is unable to serve for the duration of the temporary license, a substitute individual may

(g) A Type 2 temporary producer licensed under this paragraph may be appointed by more than one insurer.

(h) The fees for a Type 2 temporary producer license are the same as for an individual producer provided in Code of Ala. 1975, §27-4-2(a), as set forth below:

1. Application fee	\$30.00
2. License fee	\$50.00
3. Appointment fee	\$40.00

(3)(a) Upon successful completion of the required insurance producer examination and any criminal history record check required under Chapter 482-1-157, an unexpired temporary producer license under either paragraph (1) or (2) will be automatically converted to an individual insurance producer license for the same line of authority covered by the examination. No additional fees are required at that time and the new individual insurance producer license will be considered to have been first issued on the date of the conversion from the temporary license for purposes of determining renewal and continuing education requirements.

(b) If the temporary insurance producer license expires prior to successful completion of the required examination and any criminal history record check required under Chapter 482-1-157, the individual must complete the application process for individual insurance producer license to become licensed.

(3) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be suspended for either a specified

period of time or until certain specified conditions are complied with subject to the following:

(a) During the term of the suspension, the licensee may not engage in any actions or activity for which the license is required but remains subject to all applicable requirements of the Insurance Code, including, but not limited to, requirements concerning continuing education.

(b) A suspended license may not be renewed if the renewal date occurs during the suspension term.

(c) A suspension is lifted upon expiration of its term or, if based on compliance with specified conditions, by an order issued upon the licensee's showing that the conditions have been met or complied with, or by an order issued after consideration of an application to lift the suspension has been submitted by the licensee. Upon lifting of the suspension, the license is deemed reinstated unless the license has expired or has otherwise terminated during the suspension term.

(d) If the license has expired or otherwise terminated during the suspension term less than twelve (12) months before the date on which the suspension is lifted, the licensee may immediately apply for a license without complying with any applicable examination requirements. If over twelve (12) months have elapsed between the expiration or other termination of the license and lifting of the suspension, the licensee must comply with any applicable examination requirements prior to applying for the license.

(4) By means of a settlement agreement and consent order, or by order issued after other appropriate administrative proceedings, the license of a licensee may be revoked subject to the following:

(a) The Commissioner's acceptance of a "voluntary surrender" of a license in lieu of administrative proceedings to revoke the license is deemed a revocation for purposes of this section irrespective of whether the settlement agreement and consent order or other order, or information provided by the Department to the NAIC characterizes the action as a "revocation."

(b) From and after the date of revocation, the licensee may not engage in any actions or activity for which the license is required.

(c) A person whose license has been revoked must apply to the Commissioner for permission to apply for any form of license issued through the Department. Such application cannot be made before expiration of the later to occur of two (2) years after the revocation date or such longer period as may be specified

in the revocation order. The application may be in the form of a letter addressed to the Commissioner with such attachments as the applicant may deem appropriate. Whether to grant such permission is at the sole discretion of the Commissioner and is dependent upon the receipt of satisfactory proof that the applicant has complied with such conditions for seeking a license, if any, specified in the revocation order, the conditions which led to the revocation have been corrected, and the possibility of recurrence of the conditions has been substantially mitigated or eliminated and should no longer be used to prevent the reapplication for license.

(d) If satisfied that reasons for the revocation are no longer present and should not be used to prevent the applicant from again becoming licensed, the Commissioner shall issue an order authorizing the applicant to again apply for a license. The applicant must comply with any applicable examination requirements as if the applicant is initially applying for a license prior to applying for the license.
