Basic Requirement.

(1) Every physician licensed to practice medicine in Alabama who resides or practices in the state must earn in each calendar year, on or before December 31, not less than twenty-five (25) AMA PRA Category I CreditsTM or equivalent as defined in this rule of continuing medical education. For the purpose of compliance with the continuing medical education (CME) basic requirement stated in paragraph (a) for only the 2010 calendar year, credits earned in the 2009 calendar year which are not used to meet the 2009 calendar year CME requirement may be carried forward and used to meet the 2010 calendar year requirement. Carrying forward credits shall not be allowed thereafter.

(2) For the purposes of this chapter, AMA PRA Category I Credit Continuing Medical Education shall mean those programs of continuing medical education designated as AMA PRA Category I Credit which are sponsored or conducted by those organizations or entities accredited by the Council on Medical Education of the Medical Association of the State of Alabama or by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor or conduct Category I Continuing Medical Education Programs.

(3) The following courses and continuing medical education courses shall be deemed, for the purposes of this Chapter, to be the equivalent of AMA PRA Category I Credit Continuing Medical Education:

(a) Programs of continuing medical education designated as Category I-A which are sponsored or conducted by organizations or entities accredited by the American Osteopathic Association to sponsor or conduct Category I-A Continuing Medical Education.

(b) Programs of continuing medical education designated to confer "Prescribed credits" which are sponsored or conducted by organizations or entities accredited by the American Academy of Family Physicians to sponsor or conduct "Prescribed credit" continuing medical education activities.

(c) Programs of continuing medical education designated to confer ACOG Cognate Credits[@] which are sponsored or conducted by organizations or entities which are accredited by the American College of Obstetrics and Gynecology to sponsor or conduct approved ACOG Cognate Credit activities on obstetrical and gynecologic related subjects.

(d) Programs of continuing medical education designated as such by the Alabama Board of Medical Examiners.

(e) Effective January 1, 2014, nationally recognized advanced life support/resuscitation certification courses, not otherwise accredited for AMA PRA Category 1 Credit™, for a maximum of two (2) Category 1 credits for each course. Basic life support courses are excluded and are not deemed to be the equivalent of Category 1 continuing medical education.

(4) Effective January 1, 2003, the Board may require all physicians and osteopaths to successfully complete a prescribed course of continuing medical education on a subject or subjects designated by the Board. The Board may prescribe by regulation a fixed period of time or deadline for completion of the prescribed continuing medical education course or courses. The Board may make provision for a physician to be excused from this requirement for reasons satisfactory to the Board. The Medical Licensure Commission of Alabama may, subject to notice and hearing, within its discretion, indefinitely suspend the license to practice medicine of a physician who fails to successfully complete the course or courses of continuing medical education required by this subsection or impose administrative fines or other penalties as authorized by Section 34-24-381.

(a) Prescribed programs of continuing medical education required by the Board under the provisions of this paragraph shall count toward the basic requirement for continuing medical education as set forth in paragraph (1) above in the calendar year in which the program or course of continuing medical education was completed. Programs of continuing medical education developed by the Board under the provisions of this section and made available to physicians and osteopaths shall be deemed to be the equivalent of AMA PRA Category I Credit Continuing Medical Education for the purposes of this rule. The Board may fix a reasonable charge to the licensee for any program of continuing medical education developed by the Board.

(b) Physicians holding an active license to practice medicine in this state will be notified by the Board of Medical Examiners of any prescribed course of continuing medical education by written notice which may accompany the licensee's annual license renewal application. The notice will designate the subject matter, course content and credit hours of the prescribed continuing medical education course and will provide licensees with information concerning the source or sources of such programs of continuing medical education. The notice will contain a deadline by which time the licensee must have completed the prescribed course of continuing medical education, provided, however, that the deadline will not be less than 12 months following the date that the notice was mailed to the licensees.

(c) The Board may excuse a licensee from the requirement to complete a prescribed course of continuing medical education

and may grant extensions for the completion deadline of prescribed courses of continuing medical education for reasons related to ill health, disability, financial hardship or other reasons deemed sufficient by the Board. Applications for excusal or extension of deadline should be addressed to Executive Director, State Board of Medical Examiners, Post Office Box 946, Montgomery, Alabama 36101-0946.

Persons Affected.

Every physician holding a current license to practice medicine in the State of Alabama who resides in the State of Alabama is required to comply with the minimum requirement for continuing medical education established by these rules. Physicians holding a license to practice medicine issued by the State of Alabama who do not reside within the State of Alabama are exempt from this Chapter; except that a physician who maintains his personal residence outside of the State of Alabama but who maintains a significant medical practice within the State of Alabama is not exempt and must comply with the continuing medical education requirements established by these rules. A nonresident physician exempt from the minimum continuing medical education requirement who moves his residence into the State of Alabama shall be exempt from the minimum continuing medical education requirement for the calendar year in which he moved his residence into the State of Alabama. For the purpose of this Chapter, a significant medical practice in this state is the practice of medicine in any form for more than ten (10) calendar days in a calendar year. The provisions of this Chapter shall apply to licenses issued without examination (limited licenses) issued under the provisions of §34-24-75, except that physicians who are enrolled or were enrolled in a residency training program or a clinical fellowship program during any part of the calendar year are exempt.

545-X-5-.04

Retired Physicians.

A retired physician who does not engage in the practice of medicine in any form, but who nevertheless desires to maintain a current license may be excused from the minimum continuing medical education requirement by submitting to the State Board of Medical Examiners an application for waiver and a statement in writing signed by the physician attesting that he is retired and is no longer practicing medicine in any form. An application for a waiver due to retirement shall be deemed a request for a voluntary restriction on the physician's certificate of qualification and license to practice medicine under Section 34-24-361(g) which prohibits the physician from engaging in the practice of medicine in any form while the waiver is in effect. During any period of time in which a physician with an active license to practice medicine has been granted a waiver due to retirement by the Board, the status of such physician's license shall be "active with restriction due to retirement". The restriction shall be considered non-disciplinary, shall not be reportable to the National Practitioner Data Bank and shall not be published in the Board of Medical Examiners' Newsletter. The restriction shall be a matter of public record and available to any person or organization requesting verification of the license status of the physician. In order to be granted a waiver due to retirement, the physician must voluntarily surrender his current Alabama Controlled Substances Registration Certificate, which must accompany the application for waiver. A retired physician who has claimed exemption from the minimum continuing medical education requirement pursuant to this rule and who at a subsequent time desires to re-enter the practice of medicine in any form shall submit to the Board an application for removal of waiver status and proof that he has complied with the continuing medical education requirement as set forth in Rule 545-X-5-.02. Documentation necessary to establish compliance shall be in accordance with Rule 545-X-5-.10. Proof of compliance with the continuing medical education requirement is a condition precedent to re-entering medical practice and to the issuance, re-issuance or renewal of the physician's Alabama Controlled Substances Registration Certificate.
