580-1-3-.01 Short Title.

This Chapter shall be known and may be cited as the "Interstate Compact on Mental Health Act."

Statutory Authority: Code of Ala. 1975, §§22-55-1 through 22-55-4.

History:

580-1-3-.02 Enactment Of Compact Terms.

The interstate compact on mental health is hereby enacted into law and entered into by this state with all other states legally joining therein.

Author: Division of Mental Retardation, DMH/MR

Statutory Authority: Code of Ala. 1975, §22-55-1.

History:

580-1-3-.03 Article I Purpose Of Agreement.

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action to the benefit of the patients, their families and society as a whole. Further, the party states find the necessity of and desirability for furnishing such care and treatment bear no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally, ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

History:

580-1-3-.05 Article III Institutionalization.

(1) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.

(2) The provisions of paragraph (1) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof and such other factors as shall be considered appropriate.

(3) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (2) of this article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.

(4) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(5) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time, and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

History:

580-1-3-.06 Aftercare.

(1) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive aftercare or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that aftercare in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such aftercare in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient and such other documents as may be pertinent.

(2) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby and if the public safety would not be jeopardized thereby, the patient may receive aftercare or supervision in the receiving state.

(3) In supervising, treating or caring for a patient on aftercare pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care and treatment that it employs for similar local patients.

The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(2) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.
