660-2-2-.01 Purpose.

Family Assistance (FA) is designed to provide financial assistance to children and their parent(s) who are needy as defined by the Department. The legal base for the financial assistance program is Title IV-A of the Social Security Act, Code of Ala. 1975, as amended, Title 38 and court rulings. The program is funded by State and Federal funds which are expended in accordance with the law, and administered in compliance with the Social Security Act. References in other departmental rules, manuals or written materials to ADC, AFDC, Aid to Dependent Children or Aid to Families with Dependent Children are synonymous with the terms family assistance (FA) or Family Assistance Program(FAP).

660-2-2-.03 Rights And Responsibilities Of Applicants And Recipients.

(1) Any person has the right to apply for assistance, have his/her eligibility determined, and if found eligible, to receive an established monthly amount unless benefits are prohibited per rule 660-2-2-.40. Any and all payments are subject to availability of funds. Persons receiving a direct payment are to use these funds for the benefit of the dependent children. Certain restrictions about accessing and using benefits apply as provided in Rule 660-2-2-.41. The recipient of public assistance funds must assume the responsibility of furnishing all necessary facts and documentation to establish or reestablish eligibility, advise the Department of any changes in his/her circumstances within 10 days which might affect eligibility and/or the amount of the assistance grant, and to provide the Department with any channel of information concerning his/her affairs that may be determined necessary. An applicant/recipient who refuses to cooperate with the Department by not providing required information, verification, or documentation shall be denied/terminated from FA as eligibility cannot be established.

(2) The individual has the right to confidentiality, to receive prompt action, equitable treatment, notification of any case action taken, and to receive a fair hearing due to an appeal of case action.

(3) Departmental forms explain these rights and responsibilities. These forms are explained and given to each adult individual applying for assistance, and to recipients as needed. Copies of these forms may be obtained from the Department.

History: Effective June 28, 1983.

660-2-2-.05 Definitions: Application Process.

The administrative definitions applicable to the application process are as follows:

- (a) An applicant is an individual who made application for public assistance to the County Department in behalf of dependent children and whose application has not been disposed of by appropriate County Department action.
- (b) An application is the action taken by an individual in filling out and signing an application form requesting assistance. A request to add someone who joins the assistance group is also considered as application for that person.
- (c) An inquiry is a request for information only. An inquiry differs from an application in that the person's intent is to obtain information rather than to receive financial aid. Intent to receive financial aid is demonstrated by the person's signature on the application form.
- (d) A referral is classed as an inquiry. It is a request for information, service, or aid in behalf of an individual. It may be made by an agency, an institution, or another person. The agency considers a referral as an inquiry until application is made.

(e) An application form is the document which when completed, dated, signed and received by the Department serves as official notice that a person wishes to receive assistance.

(f) The date of application is the date on which the application form is received by the Department. The applicant shall retain the original date of application when the application is denied in error because of certain administrative or worker errors or when an appeal is upheld by a Department Hearings Officer.

(g) The application process begins with receipt by the local Department office of a completed, dated, and signed application form and is considered complete when the application is rejected or when the applicant's name appears on a new case payroll.

(h) A determination of eligibility is the process in which the Department's worker obtains the facts of the situation of the individual applying for or receiving assistance as related to each factor of eligibility. The worker, considering these facts, invokes his/her knowledge of the Department's approved policy interpretation and makes an objective and equitable decision concerning the individual's eligibility or ineligibility for public assistance. In the determination of eligibility process certain information must be substantiated, verified, or documented.

1. Substantiate. To establish accuracy of information by obtaining consistent, supporting information.

2. Verify. To confirm the accuracy of the information through a source(s) other than the individual. Verification may be secured on the telephone, in written form, or by personal contact.

3. Document. To establish the accuracy of information by obtaining and including in the case record an official document, official paper or a photocopy of such document or paper that supports the statement(s) made by the individual.

(i) Prospective eligibility means information about actual circumstances existing at the current time projected into the next month(s) to the extent it is anticipated to be relevant then.

660-2-2-.07 Accrual Rights.

(1) Entitlement for direct assistance begins the first day of the month for which the Department's worker establishes eligibility and authorizes payment by completing, dating and signing the computer/financial documents, except payments authorized for the month of application are prorated from the date the application was received. Payment to the eligible applicant may begin on the date of application provided the applicant was eligible and is eligible on the day the eligibility worker completes the award. Persons added to an existing assistance unit may receive a prorated payment from the date of application if otherwise eligible in that month and currently eligible.

(2) A recipient's right to a money payment accrues on the first day of each month provided he is alive on that date and eligible insofar as is known. "Eligible insofar as is known" means his income and relevant circumstances in the immediately preceding month met current eligibility requirements and were not anticipated to change in the current month to the extent of causing ineligibility. Once a recipient's eligibility is established, the amount of payment he is entitled to receive for any month in which he has accrual rights is based on income and relevant circumstances in the corresponding budget month (other than when the payment is increased to include another person). To receive increased payments after death, the County Department must establish that the recipient was alive on the date that the increase was authorized.

660-2-2-.08 Redetermination Of Eligibility.

The Department must determine the individual's eligibility for continued Family Assistance (FA) payment prospectively at least once every 12 months. Special redeterminations may be scheduled in advance during the intervening period based on known facts. A special redetermination which is unscheduled may be held due to receipt of facts indicating a possible change in the recipient's circumstances. A special redetermination, scheduled or unscheduled, may develop into a complete redetermination of eligibility.

(d) Review is the redetermination of eligibility which must be completed within 12 months from the month the initial award or review is completed.

Amended: Filed August 6, 2007; effective September 10, 2007.

660-2-2-.10 **Amount Of Assistance Payment.**

The amount of assistance payment that a person receives is determined by using the appropriate payment standard (as established by the Department based on availability of funds) minus the rounded total net available income. The resulting deficit is to be the grant amount subject to the minimum payment requirement, except when the initial payment is authorized for the month of the application and is prorated from the date the application was received. The minimum grant is \$10. A check may be less than \$10 if a case is in recoupment from current assistance for an over-payment from a previous period or due to imposition of sanctions pursuant to rules 660-2-2-.18 or 660-2-2-.23.

660-2-2-.11 **Payee.**

The parent living in the home with the child will, in most instances, be payee of the grant. The specified relative living in the home can, in most circumstances, be payee only when there is no parent living in the home. A non-relative can be payee for an active Family Assistance (FA) case only for up to 90 days on an emergency basis when no parent or relative is living with the child.

660-2-2-.13 Erroneous Payments.

(1) In general, an erroneous payment means an underpayment, overpayment, delayed payment, or a payment for a period of ineligibility. The following definitions are applicable:

(a) A delayed payment is defined as a payment that has been properly authorized but the issue of a check has been improperly delayed. Corrective action will consist of a special payment processed for the period for which the individual or family had accrual rights regardless of current eligibility as soon as possible after identification of the failure to issue the check.

(b) An underpayment is defined as either a payment received by or for an assistance unit for the payment month which is less than the amount for which the assistance unit was eligible or failure to issue a payment for a payment month to an eligible assistance unit. The Department will not correct underpayments resulting from a client's failure to report information or the incorrect/incomplete reporting of information. The Department will not correct other underpayments occurring more than 12 months prior to:

1. The date the county department receives a request for correction from a member of the underpaid unit or
2. The date the county department discovers that a loss to an assistance unit has occurred.

Corrective action will involve either the issuance of a special payment or reinstatement of eligibility. The period of the special payment is from the first month of error on the 12th month prior to (1) or (2) above whichever is later, to the month in which the payment is correct.

(c) An overpayment is defined as a situation when an assistance payment received by or for an assistance unit for the payment month exceeds the amount to which the assistance unit was eligible. Recovery of all overpayments will be sought by the Department by methods described in (2) below. Corrective action will depend on the causal reason for the overpayment, the current recipient status of the assistance unit, and whether the erroneous payment is defined as non-fraud or suspected fraud as below:

1. A non-fraud overpayment is defined as an overpayment due to continued or unreduced benefits when a request for a fair hearing is submitted during the advance notice period; or due to administrative (or agency) error caused by an active or passive error on the part of a Departmental agent although the client made full disclosure of facts; or due to a payment during the advance notice period to which the assistance unit is entitled but not eligible; or due to client error when the applicant/recipient fails to disclose facts regarding his situation, but there is no demonstrable intent to defraud.

2. A suspected fraud overpayment occurs when a recipient has received an overpayment occasioned or caused by his willful withholding of information concerning any household circumstances which would affect the amount of payment. To sustain an allegation of suspected fraud, the following elements must be present: documented evidence to substantiate the facts upon which the overpayment has been determined, an actual overpayment, and evidence that the individual intentionally committed the action or inaction which has prompted the overpayment.

(2) Corrective action for overpayments should generally consist of one or more of the following recovery activities depending on the type of claim (i.e., non-fraud, suspected fraud, or fraud confirmed by court action), on the amount of the overpayment, on whether the client currently receives financial assistance, on what steps may have already been taken to collect the overpayment, on whether civil or criminal legal action is permitted under the laws or on the age of the overpayment:

(a) Monthly recoupment of the payment standard based on the current family size; the monthly percentage amount of the recoupment will be stipulated in department program operating manuals.

(b) Monthly cash repayment based on a negotiated repayment agreement; the monthly amount of the repayment shall be based on the household's current ability to repay with a suggested minimum of \$20 per claim per month. The repayment agreement may be renegotiated at any time the household's situation changes.

(c) Civil or criminal legal action as permitted to the Department under applicable state law, including claims against the estate of a deceased person through filing of a claim with the court of appropriate jurisdiction.

(d) State income tax refund intercept as permitted under the Code of Ala. 1975 for collection of debts owed to the

Department and Federal income tax refund intercept as permitted for collection of debts owed to the Department.

(3) The Department shall also operate a fraud control program which will disqualify intentional program violators from participation in the Family Assistance program as described below:

(a) For this purpose, the appropriate disqualification penalty shall be imposed against an individual who is a member of a family (regardless of whether included or excluded from the assistance unit) applying for or receiving assistance who is found on the basis of a plea of guilty or nolo contendere or otherwise by a state or federal court or by a department administrative disqualification hearing and to have intentionally made a false or misleading statement or misrepresented, concealed, or withheld facts, or to have committed any act intended to mislead, misrepresent, conceal, or withhold facts or profound a falsity, for the purpose of establishing the family's eligibility for benefits or of increasing (or preventing a reduction in) the amount of the grant or in seeking reimbursement of stolen benefits.

(b) The disqualification penalty for the violator included in the assistance unit shall be the removal of the needs of the individual found to have intentionally committed a program violation as described above in the following manner: for a period of 6 months upon the first occasion of any such offense; for a period of 12 months upon the second occasion of any such offense; and permanently upon the third or a subsequent occasion of any such offense.

(c) The disqualification penalty for the violator excluded from the assistance unit but serving as grantee relative, including SSI parents, ineligible alien parents, and non-parent grantee relatives, etc. shall be the removal of the individual as grantee relative for a period of 6 months upon the first occasion of any such offence; for a period of 12 months upon the second occasion of any such offence; and permanently upon the third or a subsequent occasion of such offence. During these penalty periods, payments to the assistance unit will be made to another relative living in the home or other protective payee pursuant to Department operating guidelines. The ineligible grantee relative may continue to receive benefits for other eligible assistance unit members for a temporary period while appointment of another grantee relative/protective payee is being processed.

660-2-2-.14 Advance Notice.

(1) Program rules provide that a person receiving assistance must be given or mailed written notification ten days in advance of action to terminate his grant or reduce the amount of his assistance.

(2) Conformity to ten-day notice is waived in the following situations, but written notification must be given or mailed to the individual prior to the effective date of the action.

(a) The County Department has factual information confirming the death of the recipient or of the FA payee when there is no relative available to serve as the new payee.

(b) The County Department receives a clear written statement signed by a recipient that he no longer wishes assistance, or that gives information which requires termination or reduction of assistance, and the recipient has indicated, in writing, that he understands that this must be the consequence of supplying such information.

(c) When a recipient is moved from one budget group to another, a clear written statement from the original grantee covering all details as in "(b)" above must be secured.

(d) The recipient has been admitted or committed to a public institution.

(g) A FA child has been removed from the home as a result of a judicial determination or voluntarily placed in foster care by the person legally responsible for his care.

(h) The recipient has been placed in skilled nursing care, intermediate care, or long-term hospitalization.

(i) A special allowance granted for a specific period is terminated and the recipient has been informed in writing at the time of award that the allowance shall automatically terminate at the end of the specified period.

(3) The amount of assistance received cannot be changed or terminated when a person requests a hearing within the advance notification period. The assistance is subject to recovery by the Department if the Department's action is sustained.

660-2-2-.20 Living In The Home Of A Specified Relative.

The child must be living in the home of a blood relative (whole blood or half-blood) within a prescribed degree of relationship as provided for in departmental operating manuals. Blood relatives with alleged status may serve where a preponderance of evidence indicates that they are natural relatives. The child may be temporarily absent from the home to obtain Medicare care, attend school elsewhere because of special educational needs or be on a vacation visit out of the home. The temporary absence applies provided (a) the parent or relative with whom the child has been living continues to have responsibility for his/her care, and continues to maintain the home; and (b) the child is to return to the home at the end of the necessary period of absence. The parent or relative may be temporarily absent to receive medical care, handle family emergencies, or be on a vacation visit out of the home or engaging in temporary seasonal employment provided s/he (a) has arranged for a responsible adult to provide care for the child while s/he is away; (b) continues to carry responsibility for the child; and (c) plans to return to the home at the end of the temporary period of absence. In time of crisis or emergency, a non-relative may be payee of the grant for a period not to exceed 90 days. A minor child or parent who has been, or is expected to be absent from the home for a period of 30 consecutive days is not eligible for assistance unless the absence is for temporary reasons only. If the grantee relative does not notify the agency of a child's non-temporary absence by the end of the 5-day period that begins with the date that the absence becomes clear, the grantee relative will not be eligible for assistance for the number of months the absence was not timely reported.

660-2-2-.21 Social Security Account Numbers.

To be eligible for Family Assistance (FA) , the child, parent, or relative must provide the Social Security account number when known for each person whose needs are included in the grant, or apply for and then furnish a Social Security account number for each individual who either does not have a number assigned, whose number is unknown, or who otherwise is unable to provide an

accurate account number. Effective February 8, 1991, clients who make direct application to the Social Security Administration for a Social Security Number either by the enumeration at birth process or by directly contacting the Social Security Administration must upon receipt, furnish the number to the Department of Human Resources to continue to meet furnishing a SSN requirement. Failure of the child, parent, or relative to comply with these requirements will result in termination of the case.

"Newborn" policy regarding Social Security numbers allows until the first day of the 2nd month following the child's birth or the mother's discharge from the hospital, whichever is later, to meet the requirement for the newborn. This means that assistance may be paid for the newborn (without the newborn meeting the requirement) during this period.

660-2-2-.22 Assignment Of Rights To Child Support And/Or Third Party Medical Benefits.

The Child Support Act of 1979 provides in part that, by accepting FA, each recipient of FA in his care has assigned to the Department of Human Resources the right to any child support owed for or to him and/or for or to the children in his care up to the amount of FA paid to him/them. No separate assignment form is necessary. 660-2-2-.23 Cooperation In Obtaining Child Support.

(1) To be eligible for FA, the parent or relative of the child(ren) must cooperate with the Department in identifying and naming the parent(s) of the child who is receiving FA; establishing the paternity of the child who is born out of wedlock

and receiving FA; obtaining child support payments for the child who is receiving FA; and obtaining any other payments or property due a child who is receiving FA.

(2) Cooperation shall be defined as: providing reasonably obtainable information relevant to identifying and locating the absent parent; appearing as a witness in court or other hearings or proceedings as necessary; providing information, or attesting to the lack of information under penalty of perjury; paying to the child support agency any child support payments for any month for which FA was paid; providing further information on the absent parent(s) at the request of the eligibility worker or Child Support Enforcement staff; completing and signing affidavits attesting to paternity of the FA children; making court appearances and giving testimony in court at paternity hearings, support actions, etc.

(3) Federal Regulations at 45 C.F.R. 232.40 et seq. provide that the applicant/recipient for FA must cooperate with the agency in child support enforcement unless it is determined that cooperation in such activities is not in the child's best interest. Upon application for an exception to the cooperation requirement, the agency will not undertake to establish paternity or secure child support pending a determination that such activities can be safely conducted with or without the cooperation of the applicant/recipient; however, any child support payments which are already being made will continue to be received. The determination of good cause is made on the basis of either documentary evidence alone or credibility investigation alone. The decision as to whether good cause exists is made by the "County Good Cause Review Team."

(4) The eligibility worker must fully explain to the parent/relative the stipulation of the Child Support Enforcement laws as they apply to his/her particular situation, in order to ensure the cooperation of the parent/relative. The parent/relative must understand that the State of Alabama, under the law, must take action to locate the absent parent(s), establish paternity, and secure all child support or other benefits due the child. Further, the law requires the parent/relative to assist in this process in any way possible.

(5) Failure or refusal to cooperate by individuals who are applicants results in denial of the application and loss of benefits for that application period i.e., the month of application through the month of disposition of the application.

(6) Failure of recipients to cooperate in obtaining support will result in the following penalties:

(a) For the first three months of noncooperation (consecutive or not), the grant amount will be reduced by 50% of the payment standard for the assistance unit size followed by activities in (b) below.

(b) For months of noncooperation in excess of three months (consecutive or not), the assistance unit will be disqualified for a one-month, period for the first disqualification.

(c) For a month of non-cooperation after the first disqualification, the case will be disqualified for six months.

(d) For each subsequent month of non-cooperation after the second or later disqualification, the assistance unit will be disqualified for a twelve-month period.

(7) Removal of sanction amount or regaining eligibility following penalties in (6) above:

(a) If the penalty period ends during a month for which a 50% payment reduction must be served, the sanction amount will be removed from the payment calculation with the month following the month of the penalty ended provided the required sanction has been served.

(b) If the penalty period ends during a month for which a disqualification must be served, the assistance unit may be eligible upon reapplication beginning with the month following the last month in the disqualification period.

(8) Penalties for noncooperation/noncompliance with Child Support and JOBS may run concurrently and during a 50% reduction month will be cumulative.

660-2-2-.36 Persons To Include In Assistance Unit (Budget Group).

(1) An assistance unit consists of those parents receiving or applying for aid. Parents, stepparents and siblings must be included in the assistance unit, unless they are ineligible to receive assistance due to, age or relationship, or as aliens, or are recipients of FCMP. Failure of a grantee relative (payee) to provide information necessary for determining eligibility and payment amount makes the entire assistance unit ineligible for assistance.

(2) In order for the child to be eligible, the assistance unit must include the following persons in the same family unit:

(a) A legal parent(s) in the home as defined in department program operating guidelines and/or stepparents not excluded under (3) or (5) below. **EXCEPTION:** Convicted parent-prisoners sentenced to do unpaid public work and permitted by court order to reside with their families.

(b) All the child's blood-related siblings or adoptive siblings under 18 or under 19 if participating in a State approved educational or training program living in the home who meet the age requirements with the exception of children who receive FCMP. Step-siblings whose legal parent resides in the home and stands as a stepparent to the applicant/recipient group are not required to be included in the assistance unit.

(3) Notwithstanding the above, certain parents, stepparents and siblings must be excluded from the assistance unit because they are not eligible for assistance. This includes:

(a) Individuals who receive FCMP and effective June 1, 1994, ACFC, or adoption assistance payments. The exclusion with

respect to individuals who receive adoption assistance does not apply if excluding the child would reduce the family's FA benefits;

(b) Aliens who would be included but for certain citizenship and alienage requirements;

(c) Aliens who would be included but are ineligible due to the deemed income of resources of their sponsors, or due to the sponsorship by an agency or organization;

(d) Individuals who would be included but for ineligibility on the basis of age or relationship.

(e) Individuals who are fleeing to avoid prosecution, or custody or confinement after conviction of a felony, or violating a condition of probation or parole imposed under Federal or State law.

(f) Individuals found guilty under Federal or State law to have fraudulently misrepresented residence in order to obtain benefits from two or more State's federally funded programs under Title IV-A of the Social Security Act, Medicaid, Food Stamps or SSI. Ineligibility for cash assistance is for a 10 year period beginning on the date of conviction.

(g) Individuals convicted under Federal or State law of a felony based upon conduct occurring on or after August 22, 1996 which has as an element the possession, use or distribution of a controlled substance unless the individual has completed his or her sentence or is satisfactorily serving a sentence of probation.

(4) With respect to persons not required to be included in the assistance unit, the caretaker relative retains the right to choose who may be included or excluded from the unit as follows:

(a) Other related children, including stepchildren, nieces, etc., of the grantee may be included, if such children meet the age requirements and are otherwise eligible. (If one child of a sibling group is included, all his siblings who reside in the home and who meet age requirements must be included. When a single caretaker is providing parental guidance and control over multiple, distinct sibling groups, the groups must be consolidated into one assistance unit.)

(5) Parents, stepparents and siblings included in the assistance unit must comply with all requirements for example JOBS and enumeration. Persons otherwise required to be included but who are ineligible due to failure to meet an eligibility requirement, must be included when no longer ineligible.

660-2-2-.40 Time Limits.

(1) Funds provided by the Federal Government under the TANF block grant cannot be used to provide assistance to a family in which the grantee or spouse of the grantee has received assistance for more than 60 months (whether or not consecutive). A month of assistance does not include any month a check is not issued due to minimum payment, sanction or recoupment to a zero check amount. The count began for current recipients with the payment made for December, 1996; for applicants awarded November 15 - 30, 1996 for a November, 1996 benefit, the count begins November, 1996. The count will begin for applicants with the month for which payment is first authorized, whether or not prorated and regardless of when payment for the month is actually received but no earlier than November 15, 1996.

(2) A month of assistance will not be counted against the sixty-month lifetime limit:

(a) if the assistance unit does not include a grantee or spouse of the grantee;

(b) for any member of the assistance unit that is not the grantee or the spouse of the grantee;

(c) if assistance is received by an adult while living in Indian country where at least 50 percent of the adults are unemployed;

(3) Some families may receive Federal TANF assistance beyond 60 months if the grantee or spouse of the grantee meets the extension criteria as follows:

(a) has a personal hardship and

(b) is currently complaint/cooperative and continues to be complaint/cooperative with JOBS and Child Support program criteria. Conditions in (3) (a) and (3) (b) must be met for each month of receipt over 60.

(4) A personal hardship exists for an assistance unit in which the grantee or spouse of the grantee:

(a) Is a person whose presence is required on a substantially continuous basis due to the illness or incapacity determined on the basis of medical evidence of an individual who is related to the caregiver within a specific degree as provided for in departmental operating manuals and no other person is available to provide the needed care.

(b) Has an illness or injury which has lasted or is expected to last at least 30 days which is serious enough to temporarily prevent employment (or training with the hope of employment) when determined on the basis of medical evidence from the attending physician/clinic. This includes pregnancy when it has been determined by medical evidence that working or participating in training would be detrimental to the woman or the unborn child.

(c) Is incapacitated with a physical or mental impairment determined by a physician or a licensed or certified psychologist which prevents the individual from engaging in employment.

(d) Has been battered or subjected to extreme cruelty to the extent participation in program work requirements is precluded. An individual has been battered or subjected to extreme cruelty if the individual has been subjected to:

1. physical acts that resulted in, or threatened to result in physical injury to the individual;
2. sexual abuse;
3. sexual activity involving a dependent child;
4. being forced as the caretaker relative of a dependent child to engage in nonconsensual sexual acts or activities;
5. threats of, or attempts at physical or sexual abuse;
6. mental abuse; or
7. neglect or deprivation of medical care.

(e) Is participating in drug, alcohol, or mental health counseling to the extent participation in program work requirements is precluded.

(f) Is age 60 or older.

(g) Has a personal barrier of such significance as to preclude training and/or employment as provided for in departmental operating manuals and determined by the case manager.

(h) Lives in a SNAP ABAWD waiver county and has not been disqualified due to noncompliance with JOBS since December, 1996.

(5) Eligibility under the extension criteria is lost if the personal hardship ceases to exist but may be regained if a hardship occurs again. The personal hardships in "(b), (c), and

(g) above automatically cease to exist if the individual with the hardship becomes employed or employable as determined by the case manager pursuant to program policies. The personal hardship in "(h) above also ceases to exist if the individual becomes employed or the county loses ABAWD status but may be regained if the individual loses the job with good cause as defined by program policy or the county regains ABAWD status or the client moves to an ABAWD county.

(6) Eligibility under the extension criteria is **permanently** lost if the individual with the personal hardship is non-compliant with JOBS or Child Support. The non-compliant/non-cooperative individual is permanently barred from receiving assistance for him/herself and cannot receive for any child(ren). The permanent bar also applies to the included spouse of the non-compliant/non-cooperative individual in the unit. When the extension is lost due to non-compliance/non-cooperation, any benefits received after the 60th month are months of ineligibility which must be processed as erroneous payments and recovery sought.

660-2-2-.41 **Unauthorized Electronic Benefits Transfer (EBT) Transactions And Unauthorized FA Expenditures.**

(1) **Legal Basis**

(a) Federal law requires states to prevent assistance provided under the FA Program from being used in any EBT transaction in liquor stores, gambling establishments, and strip clubs. State law prohibits the withdrawal or use of benefits in an EBT transaction in a retail establishment the primary purpose of which is the sale of alcoholic beverages, a casino, a tattoo or body piercing facility, a facility providing psychic services, or an establishment that provides adult oriented entertainment in which performers disrobe or perform in an unclothed state (strip clubs). Use of the EBT card in any of the locations listed to access benefits and/or to purchase merchandise/goods or services is referred to as unauthorized EBT transactions.

(b) Use of any portion of the FA benefits whether in cash or an EBT transaction to purchase alcoholic beverages, tobacco products or lottery tickets is also prohibited. Purchase of any of these items is referred to as unauthorized FA expenditures. Actions taken to prevent unauthorized EBT transactions and to prevent unauthorized FA expenditures include client education about the spending restrictions and financial penalties for noncompliance.

(2) Penalties for Noncompliance

(a) For the first instance of noncompliance, the assistance unit will be disqualified from receiving benefits for a one month period.

(b) For the second instance of noncompliance, the assistance unit will be disqualified from receiving benefits for a three month period.

(c) For the third instance of noncompliance, the assistance unit may continue to receive benefits if otherwise eligible but the grantee relative is permanently disqualified from receiving benefits as a grantee relative and if included in the assistance unit is permanently disqualified to be a member of the assistance unit. Payment to the assistance unit will be made to another relative living in the home or other protective payee pursuant to Department operating guidelines. The disqualified grantee relative may continue to receive benefits for other eligible assistance unit members for a temporary period while appointment of another grantee relative/protective payee is being processed.

(d) In addition to penalties in (a)-(c) above the recipient must reimburse the Department as follows: For unauthorized EBT transactions, the amount withdrawn and/or used; for unauthorized FA expenditures, the amount of the purchase. Reimbursement in the full amount must be made before the assistance unit can again receive benefits following a period of disqualification as described in (a) and (b) above or before another relative living in the home or a protective payee can be approved to receive as described in (c) above.

(e) Disqualifications defined herein may not run concurrently with any other program sanctions or disqualifications.

(3) Definitions
