(1) Application for a License.

(a) Day care or nighttime care shall not be provided or advertised prior to issuance of a license or a six-month permit.

(b) Any person, group of persons, or corporation may obtain an application for a license to operate a child care facility by contacting the Department of Human Resources.

(c) An application for a license to operate a child care home shall be made on the required form and shall include all requested information.

(d) Applications for a license shall not be transferred from one person to another or from one location to another.

(e) Quality Rating Improvement System

1. The Quality Rating Improvement System (QRIS) is a voluntary program based on a systemic approach to assess, improve, and communicate the level of quality in early care and education programs in the state.

2. Initially, all licensed providers not on an adverse action will be enrolled as a participant in the QRIS program as a Star 1 rated facility. A licensed provider may choose to opt out of the QRIS program by providing the DHR Child Care Services Division written notice within sixty days of the adoption of these standards.

3. If a provider chooses not to participate in the QRIS system, no star rating will be assigned, and the provider will be indicated as a "non-participant".

4. All applicants for a license or for renewal shall indicate on the application in the space provided whether the applicant chooses to participate in the QRIS program or whether the applicant chooses to be a non-participant in the QRIS program. Participation in QRIS program is voluntarily, and the decision to be a non-participant shall have no effect on the license issued pursuant to these standards. The QRIS Star rating earned by a participating provider shall have no effect on the license issued pursuant to these standards.

5. A provider's decision regarding QRIS participation may only be changed when requested on the next Licensing Renewal Application.

(2) Prohibited Advertisement.

(a) No person, unless licensed or holding a six-month permit, may cause to be published any advertisement which solicits a child or children for care. 1. The licensee shall report promptly to the child's parent(s)/guardian(s):

Caregivers should engage with infants on the ground each day to optimize adult/infant interaction.

(d) Infants should not be seated for more than 15 minutes at a time, except during meal or snacks. Infant equipment such as swings, stationary activity centers, infant seats, (e.g., bouncers) and molded seats should only be used for short

Caregivers shall be careful not to get any of the fluid in your eyes, nose, mouth or any open sores. Caregivers shall clean and disinfect any surfaces, such as counter tops and floors, on which body fluids have been spilled. #### **660-5-27-.11 Corrective/Adverse Actions.**

Corrective or adverse actions may be imposed by the Department when the licensee fails to meet and maintain standards prescribed by the Department. Corrective and adverse actions may include, but need not be limited to: deficiency reports; corrective action plans; probationary status; restrictions or modifications of the provisions of the license/ permit; suspension of a license/permit; revocation of a license/permit.

Written notice of the corrective or adverse action shall be posted at each public entrance of the child care home.

None of these requirements are to be interpreted to allow a home to operate in violation of the standards or out of compliance with the standards.

(1) Deficiency Report. If an inspection, evaluation, or investigation indicates non-compliance with the standards (deficiency), a deficiency report shall be prepared by the Department. A deficiency report is prepared in conjunction with or subsequent to a visit to the home, or after investigation of a substantiated complaint regarding the home. In any visit to the home in which deficiencies are observed or noted, the licensing representative shall complete a deficiency report, and discuss the deficiencies observed or noted with the licensee or facility representative. A copy of the completed deficiency report shall be provided to the licensee or facility representative. No deficiency report shall be completed in conjunction with a prelicensing visit.

(2) Corrective Action.

(a) If an inspection, evaluation, or investigation indicates continued or repeated non-compliance with the standards, or if areas of non-compliance indicated previously on a deficiency report are not corrected, a corrective action plan may be developed to allow the licensee to achieve compliance with the standards while continuing to care for children. The corrective action plan shall include: a statement of each deficiency; a description of how the deficiency shall be corrected; the date by which corrections shall be completed; and the signature of the Department's representative and the licensee or facility representative.

(b) During the corrective action period, the licensee shall correct each deficiency (area of noncompliance) and shall report the corrections to the Department. The length of time the corrective action plan remains in effect shall be determined based on the nature of the areas of noncompliance. If the licensee fails or refuses to comply with the standards and the terms of the corrective action plan, the Department may initiate adverse action such as probation or revocation of the license/permit.

(c) Requests for changes to the provisions of the license such as increases in licensed capacity or changes in the ages of the children received for care shall not be granted during the corrective action period.

(3) Restriction or Modification of the Provisions of the License/Permit

(a) The right to restrict, limit, or suspend specific activities provided by the child day/night care home, such as but not limited to: away-from-the-home activities; transportation of the children; swimming.

(b) The right to restrict or limit the use of specific areas of the home, such as but not limited to: outdoor play areas; bathrooms; rooms used by the children.

(c) The right to reduce the licensed capacity of the home or to amend the ages of children to be served, due to restricted use of required space or bathroom facilities or lack of qualified caregivers.

TYPES OF ADVERSE ACTIONS:

If a facility is placed on adverse action, the facility's participation in the State's Quality Rating Improvement System will be revoked. Facilities may resume participation in the Quality Rating Improvement System at the next licensing renewal if the facility is no longer on adverse action.

1. Probationary Status.

(i) If an inspection, evaluation, or investigation indicates non-compliance with the standards, or if conditions exist that could pose a hazard to the health and safety of the children in care, a period of probationary status may be instituted to allow the licensee to achieve compliance with the standards while continuing to care for children. At the beginning of the probationary period the licensee shall be

provided with: a statement of each deficiency; a description of how the deficiency shall be corrected; the date by which corrections shall be completed; and the signature of the Department's representative and the licensee or facility representative.

(ii) During the probationary period, the licensee shall correct each deficiency (area of noncompliance) and shall report the corrections to the Department. The length of the period of probationary status shall be determined based on the nature of the areas of noncompliance. The maximum period shall be six (6) months. At the end of the probationary period, the home's license shall be returned to active status if the home is in compliance with the standards. If the licensee fails or refuses to comply with the standards during the probationary period, the Department may initiate revocation of the license/permit.

(iii) Requests for changes to the provisions of the license such as increases in licensed capacity or changes in the ages of the children received for care shall not be granted during the period of probationary status.

2. Revocation of a License. (See Code of Ala. 1975, Section 38-7-8). The Department may revoke or refuse to renew the license of the child care home or refuse to issue a full license to the holder of a six-month permit should the licensee:

(i) Consistently fail to maintain standards prescribed and published by the Department;

(ii) Violate the provisions of the license issued;

(iii) Furnish or make any misleading or any false statements or reports to the Department;

(iv) Refuse to submit to the Department any reports or refuse to make available to the Department any records required by the Department in making an investigation of the child care facility for licensing purposes; provided, however, that the Department shall not revoke or refuse to renew a license in such case unless it has made written demand on the person, firm or corporation operating the facility requesting such report or reports and such person, firm or

corporation fails or refuses to submit such records for a period of ten days.

(v) Fail or refuse to submit to an investigation by the Department;

(vi) Fail or refuse to admit authorized representatives of the Department at any reasonable time for the purpose of investigation;

(vii) Fail to provide, maintain, equip and keep in safe and sanitary condition the premises established or used for child care as required under standards prescribed by the Department, or as otherwise required by any law, regulation or ordinance applicable to such facility;

(viii) Refuse to display its license or permit;

(ix) Fail to maintain financial resources adequate for the satisfactory care of children served in regard to upkeep of premises and provisions for personal care, medical services, clothing, learning experience and other essentials in the proper care, rearing and training of children; or

(x) Fail to adhere to all terms of the Family/Group Day Care/Nighttime Home Agreement required on the Application for a License.

3. Suspension of a License. In accordance with the Code of Ala. 1975, Sections 38-7-11 and 41-22-19(d), the Department has the authority to immediately suspend without notice the license/six-month permit if an inspection by the Department of a licensed child care facility discloses any condition, deficiency, dereliction, or abuse, which is, or could be, hazardous to the health, safety, or physical, moral, or mental well-being of the children in the care of the child care facility being inspected. In this event, the child care facility shall not operate during the pendency of any proceeding for a fair hearing or judicial review, except under court order. The suspension may remain in effect for a period of not longer than 120 days and shall not be renewable. The license shall not be suspended for the same or a substantially similar emergency within one calendar year from its first suspension unless the emergency could not have been reasonably foreseen during the initial 120 day period that such emergency would continue or would likely reoccur during the next nine months. When such summary suspension is ordered, a

formal suspension or revocation proceeding shall also be promptly instituted and acted upon.

Penalty for Unlicensed Facilities. If the Department representative determines, through investigation, that any person, group of persons, or corporation is, or has been, operating a child care facility without a license, approval or six-month permit, the results of the investigation shall be reported to the Attorney General and to the appropriate District Attorney for prosecution. (See Code of Ala. 1975, Section 38-7-10, 38-7-16, and 38-7-17.)

Refusal to Permit Inspections. (Code of Ala. 1975, Section 13A-10-3.)

4. A person commits the crime of refusing to permit inspection of property that is owned, possessed or otherwise subject to his/her control if a public servant is legally authorized to inspect such property and an attempt is being made to exercise that authority and he/she:

(i) refuses to produce the property for a reasonable inspection; or

(ii) refuses to permit a reasonable inspection.

5. For the purposes of this section, "legally authorized inspection" includes any lawful search, sampling, testing or other examination of property, in connection with the regulation of the defendant's business or occupation, that is authorized by law.

6. Refusing to permit inspection is a Class C misdemeanor (fine of not more than \$500.00 or imprisonment in county jail for not more than three months).

## 660-5-27-.12 Hearings And Appeals.

(1) Pre-revocation Hearings.

(a) If the Department makes the decision to revoke or refuse to renew the license or six-month permit, a pre-revocation hearing shall be held in order to discuss the intended action and give the licensee/permit holder an opportunity to show why the action should not be taken. Notice of the pre-revocation hearing and notice of action taken by the Department following the pre-revocation hearing shall be sent to the licensee/permit holder by certified mail unless waived. The pre-revocation hearing shall be held in accordance with the Administrative Code, Chapter 660-1-5, a copy of which may be obtained from the Department on request. The pre-revocation hearing does not alter the licensee/permit holder's right to a fair hearing.

(b) If the Department finds that danger to the health, safety or welfare of the children requires emergency suspension of a license or six-month permit, the licensee/permit holder shall be notified in writing of the reasons for the decision. The Department may proceed without hearing or upon any abbreviated hearing it finds practicable to suspend the license or six-month permit. The suspension shall become effective immediately unless otherwise stated. In this event, the child care facility shall not operate during the pendency of any proceeding for a fair hearing or judicial review, except under court order. The suspension may remain in effect for a period of not longer than 120 days and shall not be renewable. The license shall not be suspended for the same or a substantially similar emergency within one calendar year from its first suspension unless the emergency could not have been reasonably foreseen during the initial 120 day period that such emergency would continue or would likely reoccur during the next nine months. When such summary suspension is ordered, a formal suspension or revocation proceeding shall also be promptly instituted and acted upon.

(c) No pre-denial hearing is required to be held prior to the denial of an initial application for a license.

(2) Request for a Fair Hearing.

(a) An aggrieved person may request a fair hearing in the following situations:

1. If an application for an initial license is denied;
2. If an application for a renewal of a license is denied;
3. If any application for an initial license or renewal of a license is not acted upon with reasonable promptness, which is defined as sixty (60) days from the date of the receipt by the Department of all information (including but not limited to: required forms received;

investigations and inspections completed) needed to make a decision to grant or deny the license or permit; or

4. If a license or six-month permit is revoked.

(b) Notice of the opportunity to request a fair hearing shall be given by certified mail.

(c) When a pre-revocation hearing has been held, a request for a fair hearing shall be filed within fourteen (14) calendar days of the notice of the revocation. Any existing license or six-month permit shall remain in effect during the fourteen (14) day time period allowed for request of a fair hearing. If a fair hearing is requested, the existing license or six-month permit shall remain in effect until and including thirty (30) days after the final decision on the request for a fair hearing.

(d) If the Department finds that danger to the health, safety or welfare of the children requires emergency suspension of a license or six-month permit, the licensee/permit holder shall be notified in writing of the reasons for the decision. The existing license or six-month permit shall be suspended immediately or on the date specified in the notice of suspension.

(e) In all other situations where a pre-action hearing has not been held, a request for a fair hearing shall be filed within sixty (60) calendar days of the action (or inaction) with which the aggrieved person is dissatisfied.

(3) Conduct of a Fair Hearing.

(a) When a pre-revocation hearing has been held, the fair hearing will be conducted on the record. No additional evidence or testimony will be admitted unless it can be shown that it is material to the issues of the case and could not have been presented at the prior hearing with reasonable diligence or that the additional evidence was not allowed at the prior hearing due to unlawful procedures.

(b) When a pre-action hearing has not been held, the fair hearing is to be conducted in accordance with the hearing procedures found in the Administrative Code, Chapter 660-1-5, a copy of which may be obtained from the Department on request.
