720-X-14-.01 Definition Of Medical Gas Piping Systems.

Due to the threat to human life, no one shall install any medical gas piping or breach the integrity of any medical gas piping system unless the person has first received an endorsement for medical gas piping from the Alabama Plumbers and Gas Fitters Examining Board and such endorsement is affixed to the current certificate for competency issued to said person and the certificate is in their possession. No endorsement from the Alabama Plumbers and Gas Fitters Examining Board shall be issued or shall be valid unless said certificate holder also holds a current National Inspection Testing Certification (NITC), or other board approved agency or entity in medical gas fitting and is in possession of a valid NITC card, or card from another board approved agency or entity evidencing current certification. Annual renewal of the medical gas fitter endorsement requires submission to the Board of the medical gas fitter's NITC, or other board approved agency or entity card evidencing a current, valid NITC certification, or other board approved agency or entity certification. Replacing cylinders and filters, and performing routine and preventive maintenance that does not breach the integrity of the medical gas piping system and does not constitute the installation, repair, or replacement of medical gas piping shall not require a medical gas piping endorsement.
