**FEE SCHEDULE C (Continued)
EXPLANATORY NOTES**

- (1) Fee applies to initial unit (design) of a given type at a facility.
- (2) Fee applies to additional designs and/or units of the same type unit or process at a given facility.
- (3) Refer to rule 335-14-8-.04(3) for classification of minor mods. Each separate mod request requires a separate fee payment. Multiple changes to a permit consolidated in one mod request will be charged a single fee for each applicable unit. (e.g., A facility permitted for container storage and a landfill who requests modifications to both units will be charged the appropriate fee for each unit.)
- (4) Refer to rule 335-14-8-.04(2) for classification of major mods. Each separate mod request requires a separate fee payment. Multiple changes to a permit consolidated in one mod request will be charged a single fee for each applicable unit. (e.g., A facility permitted for container storage and a landfill who requests modifications to both units will be charged the appropriate fee for each unit.)
- (5) If clean closure is not attained and a post-closure permit is required, then the cost is credited to the post-closure permit fee. Closure plan fees shall be charged per unit to be closed.
- (6) Fees for miscellaneous units (rule 335-14-5-.24) and for other units not specifically listed shall be assessed based on the fees established for the permit type most closely analogous to the activity in question. For example, an open burning/open detonation unit would be assessed fees for thermal treatment; a stabilization unit would be assessed fees for treatment; etc.
- (7) Fee applies to all treatment units except land treatment units and thermal treatment units.
- (8) Fee applies to incinerators, boilers, industrial furnaces, and other thermal treatment units.
- (9) Fee applies to each hazardous waste management unit which is subject to post-closure permitting requirements. Multiple units which are closed under a single (common) cap will be charged the fee for a

single post-closure unit. Fee also applies to certification of post-closure plans required by order.

- (10) Fee applies to permits which include solid waste management unit (SWMU) requirements (pursuant to ADEM Admin. Code rs. 335-14-5-.06(12), 335-14-5-.19, 335-14-8-.02(5)(d), but do not include regulated hazardous waste management unit requirements. This fee applies to facilities which have completed all closure and post-closure requirements for regulated hazardous waste management units, but do not complete all SWMU requirements. Fee applies to modifications which are not unit specific (i.e., mods not affecting the unit type, design, or configuration). Examples: contingency plan changes, transfer of ownership, personnel training plan changes, changes to groundwater monitoring system, etc.
- (11) Additive fees are levied in addition to base application fees as applicable. Total fees due are sum of base application fees and additive fees applicable to a given facility/application.
- (12) Initial fee applies to the first contaminant plume at a facility. The additional unit fee will be charged for each additional, separate plume at the same facility.
- (13) Fee applies to each trial burn performed.
- (14) Initial fee applies to the first investigation at a facility imposed by the Department under ADEM Admin. Code r. 335-14-5-.06(12). The fee is applicable at the time the investigation is imposed. The additional unit fee will be charged for each additional, separate investigation at the same facility (e.g. an investigation of a newly discovered area of contamination). This fee is also applicable to any investigation required by statute or order that is designed to assess the extent of contamination at a facility or a single unit within a facility.
- (15) Fee applies to each separate corrective action program proposal or corrective measures implementation plan submitted. CAPs which integrate multiple technologies (e.g., pump and treat, biological, chemical, physical, etc.) into a single system shall be charged a single fee for the system. Facilities which have multiple separate programs (e.g., two separate groundwater contamination plumes, one remediated using pump and treat and the other using vapor extraction) shall be charged a separate fee for each separate system. This fee is also applicable to passive corrective measures (e.g. land-use restrictions, monitored natural attenuation).
- (16) Fee applies to each separate corrective action management unit (CAMU) designated/approved at a facility. This fee is in addition to any other fees applicable to any hazardous waste management units included within a CAMU.
- (17) Fee determined based on type of units (Storage - \$4,855; Treatment [except Land Treatment] - \$5,820; Disposal/Land Treatment - \$11,650).
- (18) Fee applies to facilities which receive hazardous waste from off-site sources (e.g., commercial facilities).

- (19) Fee applies to thermal treatment units required to conduct indirect risk assessments.
- (20) Initial fee applies to the first CS work plan at a facility. The additional unit fee will be charged for each additional, separate CS workplan at the same facility.
- (21) Initial fee applies to the first IM work plan at a facility. The additional unit fee will be charged for each additional, separate IM workplan at the same facility.
- (22) Initial fee applies to the first CMS work plan at a facility. The additional unit fee will be charged for each additional, separate CMS workplan at the same facility.
- (23) Fee is charged per each RFA Report prepared for a given facility.
- (24) Landfill 5-Year Review Certification fee applies to operating hazardous waste land disposal facilities subject to 335-14-5-.05.
