10. Are you currently suffering from any condition that impairs your judgment or that would otherwise adversely affect your ability to practice medicine in a competent, ethical, and professional manner?

11. Within the past five years, have you raised the issue of any physical or psychiatric health disorder as a defense, mitigation, or explanation for your actions during any administrative or judicial proceeding or investigation; any inquiry or other proceeding; or any proposed termination by an educational institution; employer; government agency; professional organization; or licensing authority?

12. The Board recognizes that licensees encounter potentially impairing health conditions just as their patients and other health care providers do, including psychiatric or physical illnesses which may impact cognition, as well as substance use disorders. The Board expects its licensees to address their health concerns, both mental and physical, in a timely manner to ensure patient safety. Licensees should seek appropriate medical care and should limit their medical practice when appropriate and as needed. The Board encourages licensees to utilize the services of the Alabama Professionals Health Program, a physician advocacy organization dedicated to improving the

health and wellness of medical professionals in a confidential manner. The failure to adequately address a health condition, where the licensee is unable to practice medicine with reasonable skill and safety to patients, can result in the Board taking action against the license to practice medicine.
I have read and understand the statements above.
